PROJECTS

Shell Share

11 Nov, 2022 - 30 Oct, 2023

Mentor: Aast. Prof. Shreya Dholaria | Team Size: 3

Key Skills:

Python Server Linux command line coding Networking Network Configuration Github IP Addressing Ipconfig
Hosting Server

Our project concerns cyber security, as manual testing in the company is very time-consuming and all the workload is derived from employees. Our tool SHELL SHARE will help the user to group up in a network and try to find the bugs, as a user find a bug it gets registered in the logs and other members in the network also get updated on the bug found.

High Resistant Fire Fighting Robot

01 Sep, 2020 - 19 Feb, 2021

Mentor: Ms. Chandni Shah | Team Size: 4

Key Skills: Arduino Arduino UNO Face Recognition Python

Project Link: https://github.com/Lucky19112002/Diploma_Project.git

We created a prototype of a robot which can stand High resistant heat and go inside the burning building to let the fire down by using a standard fire fighting water sprayer. We also added and face recognition software and add detection system which can detect a human and can tell if the oxygen and level in the buildings are low or not.
